Sir:

Prior to examination of the above-entitled application, please amend the application as follows:

IN THE SPECIFICATION

Certain paragraphs of the specification have been amended. Attached hereto as Appendix A is a copy of the marked-up paragraphs.

Please replace the paragraph beginning on page 1, line 7 and ending on page 1, line 21 with the following paragraph:

Bⁱ
--Transmitter-receiver controller systems are widely used for remote control and/or actuation of devices or appliances such as garage door openers, gate openers, and security systems. Rather than transmitting a single code N to operate the receiver, rolling code technology is based on the idea that the recognized operating code of the security system changes
